Why certification?

With certification, companies are communicating to customers and stakeholders that they wish to operate within a proven framework to achieve customer satisfaction, regulatory requirements, health and safety obligations and more.

ISO CERTIFICATION & TRAINING SERVICES

We are committed to providing ISO certification and training services to help companies meet international standards & business protocols. Our certification programs help enterprises engage in continuous in-house development leading to the advancement of operations by increasing the level of employee awareness, management and safety

All your compliance needs

We have been the leading certification body, offering a comprehensive range of services to help organizations comply with a host of ISO, industry and regulatory standards, as well as demonstrate best practice.

ABOUT US

Veritas is an accredited certification body issuing internationally recognised accredited certificates to companies across a wide range of manufacturing and service industries confirming compliance with various national and international management standards.

An appropriately qualified, trained and experienced assessor, is matched to each customer by Veritas. Whilst an organisation must be subject to rigorous examination as part of the assessment and surveillance process, it is the duty of assessors to ensure that they also add value to the benefit of the customer.

The services provided by Veritas as an accredited certification body are designed to help customers maintain their systems to the latest standards and most up to date industry specifications and to demonstrate this to existing and potential new customers.

ISO INTRODUCTION

In today's globalized world characterized by strong competition and swiftly changing market conditions, implementing widely recognized standards such as ISO certifications is significant for meeting international quality standards.

Founded in 1947 and headquartered in Geneva, Switzerland, the International Organization for Standardization (ISO) is a global standard-setting body that consists of delegates from various standards organizations around the world. ISO certifications enable you to showcase that your products, services, processes and systems are incompliance with the national and international regulations and standards

ISO STANDARDS

- Help you improve the quality of your goods and services
- Help you drive growth, cut costs and increase profits
- Give your business a competitive edge
- Open up export markets for your goods and services
- Open doors to new customers and strengthen your existing business
- Help you compete with bigger enterprises
- Enhance your credibility and secure customer confidence

At Veritas, we have a broad portfolio of International Standards covering all aspects of business and technology.

Not sure which to choose?

Our Website – www.veritasassurance.com – will provide all the information you need to help you select the right standard for your business.
